DETAILED ACTION

Election/Restrictions

1. Claims 1-12 and 14-16 are allowable. The restriction requirement among species, as set forth in the Office action mailed on 12/15/2006, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claim 13, directed to a separate species is no longer withdrawn from consideration because the claim(s) requires all the limitations of an allowable claim. However, claims 17-19, directed to a method of manufacturing remain withdrawn from consideration because it is directed to a different invention and it does not require all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

2. This application is in condition for allowance except for the presence of claims 17-19 directed to a distinct invention, these claims 17-19 were specifically non-elected without traverse. Accordingly, claims 17-19 have been cancelled.

EXAMINER'S AMENDMENT

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Cancel claims 17-19.

Allowable Subject Matter

4. Claims 1-16 are allowed.

The following is an examiner's statement of reasons for allowance: Claims 1-16 are allowable since, as stated by applicant in the REMARKS filed 6/27/2007, page 9, line 19 through page 10, line 9, certain key features of the claimed invention are not taught or fairly suggested by the prior art. In claim 1, "wherein at least a part of the dielectric support layer for the first layer continues passed the first layer and is bent back to act as the dielectric support layer for the second layer". In claim 9, "allowing the flexible printed circuit board to be bent around an imaginary axis crossing said portion of the flexible printed circuit board, so that after bending the second layer comes to at least partly overlap the first layer". In claim 15, "wherein the flexible printed circuit board acts as a dielectric support layer for the first layer and continues passed the first layer and is bent back to act as the dielectric support layer for the second layer".

The closest prior art of record however singularly or in combination fails to anticipate or render the above underlined limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ricardo L. Osorio whose telephone number is 571-272-7676. The examiner can normally be reached on Monday through Thursday from 7:00 A.M. to 5:30 P.M.
